

Right

Lower ground and ground plans of The Building Centre's Store Street premises. Run by a charitable trust, The Building Centre promotes innovation in the built environment. The programme of incremental improvements is being carried out while the building remains in full use.

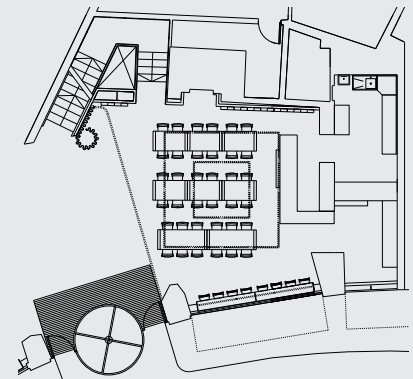

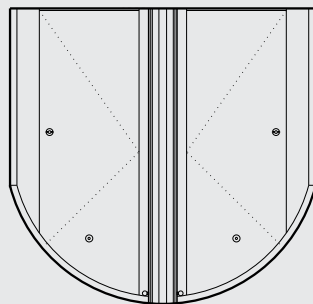

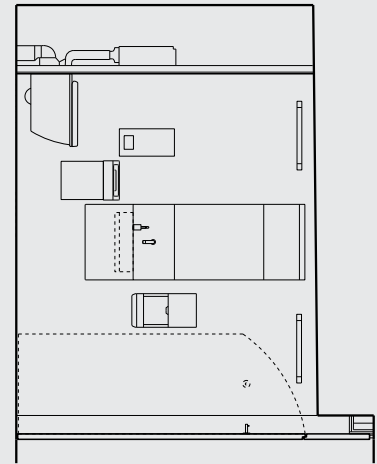

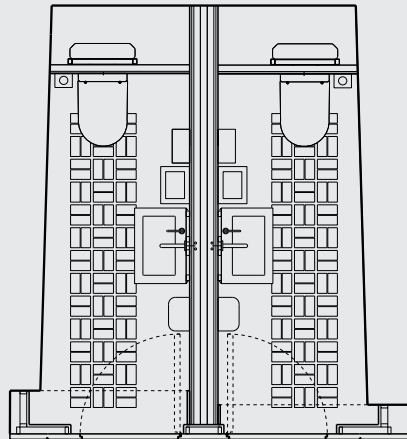

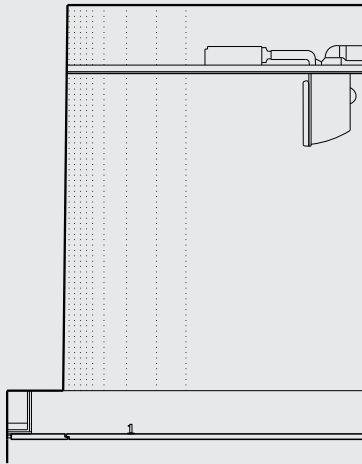

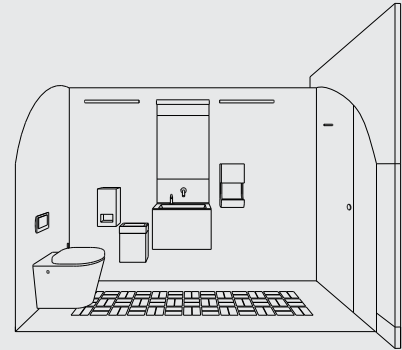

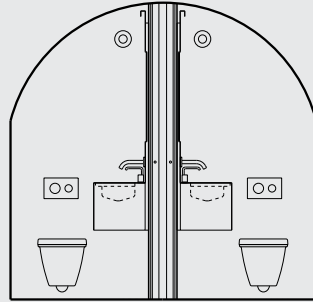

Below

Plan, internal elevations and details of the purpose-designed bench seat, central desk and table in the co-working space.

Right

The toilets are compactly squeezed into below-ground vaulted spaces, with two cubicles sharing each vault. They are accessed from a gently curving corridor lined by lockers and display cases. Plan, perspective and composite cubicle plan and elevations.

Right

Cafe plan.

Below

Section from The Building Centre reception desk through the cafe to the new kitchen.
